

STOXX EUROPE LOW BETA HIGH DIV 50

Index description

The STOXX Europe Low Beta High Div 50 Index aims to select 50 companies from the STOXX Europe 600 which have a 12-month net dividend yield higher than the EURO STOXX 50 and the lowest 12-month beta to the same index (i.e. EURO STOXX 50). All stocks are weighted according to their three-months average daily trading volume in EUR (ADTV).

Key facts

- » **UNIQUE OFFERING** - The STOXX Europe Low Beta High Div 50 Index is the first index combining dividend yield screening and minimization of beta.
- » **LIQUID, TRADABLE UNDERLYING** - The base universe (STOXX Europe 600) as well as the benchmark (EURO STOXX 50) are both highly liquid underlyings. Hence, investors can use these indices to hedge certain derivate risk.

STOXX Europe 600	13.9	12.3	12.3	12.1	1.8	3.0	1.2	11.3

Performance and annual returns⁴

Methodology

The base universe is the STOXX Europe 600 Index. Only companies with a three-month average daily trading volume (3-month ADTV) of at least five million euros are eligible for selection. In the first step, those companies which have a higher twelve-month net dividend yield than the EURO STOXX 50 are selected. From the remaining stocks, the top 50 components whom have the lowest twelve-month beta compared to the EURO STOXX 50 are selected. All stocks are ranked in ascending order. From each country a maximum of eight stocks can be selected.

The weighting is based on a components 3-months ADTV. Additionally, a cap of 5% on component level is applied.

DISCLAIMER

STOXX, Deutsche Börse Group and their licensors, research partners or data providers do not make any warranties or representations, express or implied, with respect to the timeliness, sequence, accuracy, completeness, currentness, merchantability, quality or fitness for any particular purpose of its index data and exclude any liability in connection therewith. STOXX, Deutsche Börse Group and their licensors, research partners or data providers are not providing investment advice through the publication of indices or in connection therewith. In particular, the inclusion of a company in an index, its weighting, or the exclusion of a company from an index, does not in any way reflect an opinion of STOXX, Deutsche Börse Group or their licensors, research partners or data providers on the merits of that company. Financial instruments based on the STOXX® indices, DAX® indices or on any other indices supported by STOXX are in no way sponsored, endorsed, sold or promoted by STOXX, Deutsche Börse Group or their licensors, research partners or data providers.

BACKTESTED PERFORMANCE

This document contains index performance data based on backtesting, i.e. calculations of how the index might have performed prior to launch if it had existed using the same index methodology and based on historical constituents. Backtested performance information is purely hypothetical and is provided in this document solely for information purposes. Backtested performance does not represent actual performance and should not be interpreted as an indication of actual performance.

CUSTOMIZATION

The index can be used as a basis for the definition of STOXX® Customized Indices, which can be tailored to specific client or mandate needs. STOXX offers a wide range of customization, in terms of component selection, weighting schemes and personalized calculation methodologies.

³ Net dividend yield is calculated as net return index return minus price index return
